RBI MONETARY POLICY

Bond mkt awaits G-SAP details

Expects minimum ₹1 trn of G-SAP in 2nd quarter, sees it rising to ₹1.25 trn to keep yields soft

ANUP ROY
Mumbai, 3 June

The bond market is eagerly waiting for the Reserve Bank of India (RBI) to announce how much it plans to buy in the second quarter under its government securities acquisition programme (G-SAP), and if the second tranche would bring in any conditions.

The central bank has plans to buy ₹1 trillion of bonds under the G-SAP in the first quarter, of which it has already bought ₹60,000 crore of bonds.

Friday's monetary policy will be the last for the quarter, and therefore, the second quarter numbers are expected to be spelt out in the policy.

The G-SAP announcement can come nearer to the end of the first quarter, but given that the bond yields are showing signs of firming up, and the central bank devolving primary auctions to control yields, the policy platform would be a good opportunity to address the bond market's concerns, say bond dealers.

The expectation in the market is that the G-SAP for the second quarter would be at least ₹1 trillion, but it can go up to ₹1.25 trillion, too. The central

bank may want to reserve the higher numbers for the second half of the fiscal year, when the government tends to borrow extra.

Anand Bagri, head of the domestic market, said the G-SAP could be equally distributed across quarters by a trillion each.

Ram Kamal Samanta, vice-president (investments), Star Union Dai-ichi Life Insurance, expects the G-SAP amount to scale up as the quarters progress. He expects G-SAP to

rise to as much as ₹1.25 trillion for the next quarter.

"The G-SAP is expected to be anything between ₹1 trillion and ₹1.5 trillion," said Debendra Dash, senior vice-president at AU SFB.

"If there is no announcement on G-SAP, the 10-year yield will go up by 25 basis points," said Dash.

A senior bond dealer with a large domestic bank, however, said yields will rise if the RBI doesn't announce more than ₹1 trillion of G-SAP on Friday.

Not all agree, though. "Frankly, the ₹1 trillion for GSAP 1.0 itself was a big leap for the RBI. They had refrained from giving a commitment on the amounts till the April policy. So now, expecting that the RBI will quickly become more generous with commitments of higher numbers, may be far-fetched," said Badrish Kulhalli, head of fixed income at HDFC Life.

Expectations around the G-SAP assume significance as 10-year bond yields have started crossing 6 per cent, which the RBI wants to ideally avoid.

To send a strong signal to the market, the RBI had to devolve bond auctions. Primary dealers had to buy bonds worth ₹10,735.76 crore, out of ₹11,000 crore on offer for a bond maturing in 2026. Similarly, there was ₹1,944.791 crore of devolvement out of the ₹7,000 crore offered for a bond maturing in 2050. However, the central bank exercised greenshoe options to buy ₹2,610.213 crore extra in a bond maturing in 2035.

The aggressive devolvement made the 10-year bond yields, which had just been climbing up beyond 6 per cent, settle at 5.99 per cent.

BoB may repatriate some capital from overseas biz

ABHIJIT LEE
Mumbai, 3 June

Public sector lender Bank of Baroda (BoB) is planning to shift a part of its capital in international business to its domestic operations where margins are higher and there is more room for higher volumes.

The surge in liquidity — following additional infusion by central banks to fight the Covid-19 pandemic — has pushed down interest rates across the globe. In developed markets, rates are at a near-zero level. While net interest margin (NIM) in India is at 2.8-2.9 per cent, the corresponding numbers in global

DIVERGING TREND

BoB's net interest margin trajectory (in %)

business is at 1.2-1.3 per cent.

Sanjiv Chadha, managing director and chief executive, BoB, said broadly speaking the NIM on domestic books is significantly larger than those on international books.

"Therefore, when capital is at a premium, the bank has to be very prudent in managing it," he said.

"Therefore, we would want to shift our capital from international to domestic

book," he said. The bank, however, did not clarify on how much of the capital will be brought back to India.

The capital adequacy ratio (CAR) of BoB — which has substantial presence in the Middle East, Africa, the UK, Asia Pacific and the US — was at 14.99 per cent at the end of FY21 as against 13.3 per cent in March 2020.

The bank's international book shrank in 2020-21 when deposits declined 20.9 per cent to ₹1.08 trillion at the end of March 2021 from ₹1.37 trillion a year earlier. Its advances on the international side also dipped to ₹1.1 trillion at the end of FY21 from ₹1.27 trillion at the end

of FY20.

Chadha said some segments of international business were doing well and would give good returns on equity. "African operations are doing very well and subsidiaries in Uganda and Kenya are giving us returns on equity in the high teens (15-20 per cent). But international wholesale business has been impacted more in terms of margins as compared to India," he said.

Experts said two trends were likely to continue over the next few years: shifting of more international capital to India and increase in the size of domestic book compared to those abroad.

Expect 9.5% GDP growth in FY22: Axis

PRESS TRUST OF INDIA
Mumbai, 3 June

The government will have to do its bit to help for a faster recovery and start spending at the earliest, Axis Bank's chief economist Saugata Bhattacharya said on Thursday, estimating the FY22 GDP growth to come at between 9.5-10 per cent.

The Reserve Bank, which was the earliest to act with rate cuts and liquidity enhancement measures, has run its course now and will play a limited role in the recovery by ensuring stable financial conditions, Bhattacharya told reporters on the eve of the central bank's bi-monthly policy review.

He said private consumption has fallen and there has also been a hit to spends on consumer staples. There is a need to revive it by upping of spending by the government, especially on the capital expenditure it has listed out, he said.

The government may be waiting for the lockdowns to end before they can announce specific measures for the revival, which can have the best multiplier effect. "I hope they spend soon," he added.

Bhattacharya said he feels consumption will be impacted at least till December quarter and the hit to demand will continue even after the lockdowns are lifted.

He said the RBI is most likely to revise down its 10.5 per cent GDP growth estimate for FY22, which would be more like an acknowledgement of the reverses being faced in the ongoing June quarter. He expects the RBI's new estimate to be over 10 per cent real GDP growth.

The bank's internal view is that growth will come anywhere between 9-10.5 per cent, Bhattacharya said.

Essar case: IDBI Bank secures \$239-mn debt judgment in UK

PRESS TRUST OF INDIA
London, 3 June

IDBI Bank has secured a \$239-million judgment in the commercial division of the High Court of London against a Cypriot subsidiary of India-based Essar Shipping Group, believed to be one of the largest debt judgments obtained by an Indian bank in the English courts.

Mumbai-headquartered IDBI Bank had entered into loans totalling \$148 million with two Singapore registered companies — Varada Drilling One Pte Ltd and Varada Drilling Two — for the construction of two jack up drilling rigs in March 2013.

International Drilling Holdco (IDH), the Cypriot-registered parent company of the borrowers, gave a corporate guarantee in respect of the loan. The loan and guarantee were governed by English laws and were therefore subject to the jurisdiction of the English courts.

"This is an important judgment both in terms of its size and the message it sends to defaulters that Indian banks are willing and able to recover outstanding debts through the English courts," said Nick Curling, legal director at TLT, the London law firm representing IDBI.

According to the law firm, in July 2017, after the borrowers failed to make scheduled repayments, IDBI served a formal demand for repayment of the principal amount, contractual interest, default interest and fees.

After further non-payment, the borrowers entered liquidation in Singapore and, in January 2020, TLT commenced proceedings in the

It's one of the largest debt orders obtained by an Indian bank in the UK

UK on behalf of IDBI.

Subsequently, IDBI, IDH and Essar Capital Holdings Limited, another Essar Shipping Group company, entered into a "one time settlement" agreement pursuant to which IDBI agreed to accept a partial payment in full and final settlement of the debt, provided the sum was paid on or before February 28 this year.

No such payment was received and, on March 1, IDBI applied for summary judgment, arguing there was no real prospect of IDH successfully defending the claim at trial.

The case was heard in the Commercial Court on May 21 by Deputy High Court Judge Leigh-Ann Mulcahy QC.

There was no immediate statement from the Essar Group.

The TLT team, which also included Indian banking litigation specialists Paul Gair (partner) and Alex Morris (solicitor), said the case demonstrates the ability of Indian banks to pursue defaulting borrowers and guarantors in the UK.

Notes:
1. Summarized Audited standalone financial results of the company is as under:
2. Audited financial results for the quarter and year ended 31st March 2021 reviewed by the audit committee were taken on record at the board meeting held on 3rd June, 2021.
3. The company is engaged in the business of manufacturing of alcoholic beverages. There are no reportable segments other than alcoholic beverages, which singly or in the aggregate qualify for separate disclosure as per provision of the relevant Ind AS 108 "Operating Segments".
4. In March 2020, the World Health Organisation had declared Coronavirus (COVID-19) to be a pandemic and on March 24, 2020, the Government of India ordered a nationwide lockdown, which got extended in phases across the country. Due to COVID-19 there was a significant reduction in the economic activity in the country. From May 2020, we resumed our business activities in a phased manner in line with directives issued by the central and state governments. The business operations of the company were severely impacted in particular by the loss of peak season in FY 20-21, interruption of production, disruptions in the supply chain, loss on materials etc. The industry outlook remains positive yet remains volatile depending on the future trajectory of the pandemic as well as the state of the economy. The company continues to actively review costs and focus on working capital management. We remain optimistic about the long-term growth drivers of the industry.
5. The company has seen a surge in the spread of COVID-19 in India and various state governments have imposed restrictions ranging from lock-downs to night/weekend curfews to contain the spread of COVID-19. The impact of COVID-19 pandemic on the overall economic environment continues to be uncertain. The company will continue to closely monitor the situation and any material changes to future economic conditions.
6. The Company had sought information and certification from its vendors as to their being a Micro, Small or Medium Enterprise unit under the Micro, Small and Medium Enterprises Development Act, 2006, to comply with the requirements of Law. However, till date replies have been received from very few vendors. Hence, amounts due to Micro, Small and Medium Enterprises outstanding as on March 31st 2021 is not ascertainable. The process of collecting the information from the vendors is currently ongoing.
7. Previous period figures have been regrouped and/or reclassified, wherever necessary.
8. Shareholders are requested to intimate change of address, if any.

MONSOON SETS IN OVER KERALA

PHOTO: PTI

People take shelter under a shade as it pours in Thiruvananthapuram on Thursday. The Southwest monsoon made its footfall in Kerala with many places in the state and in neighbouring Lakshadweep receiving rainfall during the day. A weather bulletin warned of heavy rainfall (7-11 cm in 24 hours) in some parts of the state over the next couple of days

'Journalists entitled to protection': SC quashes sedition case

PRESS TRUST OF INDIA
New Delhi, 3 June

The Supreme Court on Thursday quashed a sedition case against veteran scribe Vinod Dua for his alleged comments against Prime Minister Narendra Modi in his YouTube show last year, saying a 1962 verdict entitles every journalist to protection.

A bench comprising Justices U U Lalit and Vineet Saran, however, declined the prayer of Dua that no FIR should be registered against any media personnel with 10 years' experience unless cleared by a committee, saying it would amount to an encroachment into the domain of the executive.

On the issue of protection of freedom of speech and expression of media personnel, it said, "Every journalist is entitled to protection under the Kedar Nath Singh judgment (the famous verdict of 1962 on the scope and ambit of offence of sedition in the IPC)." While upholding validity of section 124A (sedition) of the IPC, the top court in 1962 had ruled the sedition charges could not be invoked against a citizen for criticism of government actions as it would be in conformity with the freedom of speech and expression.

The bench on October 6 last year had reserved the verdict on the petition after hearing arguments for Dua, the Himachal Pradesh government and the complainant, a local BJP leader, in the case.

On July 20 last year, the top court had extended till further orders the protection granted to Dua from any coercive action in the case.

The top court had earlier said that Dua need not answer any other supplementary questions asked by the Himachal Pradesh police in connection with the case.

Labour ministry sets up panel on minimum wage

PRESS TRUST OF INDIA
New Delhi, 3 June

The government has constituted an expert group led by Prof Ajit Mishra, that will give recommendations on fixation of minimum wages and national floor minimum wage.

"The Ministry of Labour & Employment issued an order and has constituted the Expert Group to provide technical inputs and recommendations on fixation of Minimum Wages and National Floor Minimum Wages," a labour ministry statement said.

Minimum wage is different for different categories of workers.

National floor refers to the minimum level of wage that is applicable to all categories of workers across the country.

The group has been constituted for a period of three years from the date of notification.

To arrive at the wage rates, the group will look

into the international best practices on the wages and evolve a scientific criteria and methodology for fixation of wages.

The expert group is chaired by Prof Ajit Mishra, Director, Institute of Economic Growth.

The members of the expert group include Prof Tarika Chakraborty, IIM Calcutta, Anushree Sinha,

Senior Fellow, National Council of Applied Economic Research (NCAER), Vibha Bhalla, Joint Secretary, H Srinivas, Director General, V V Giri National Labour Institute (VVGNI).

DPS Negi, Senior Labour & Employment Advisor, Ministry of Labour & Employment is the Member Secretary.

The group will look into the international best practices on the wages and evolve a scientific criteria and methodology

Notes:
1. Summarized Audited standalone financial results of the company as under:
2. Audited financial results for the quarter and year ended 31st March 2021 reviewed by the audit committee were taken on record at the board meeting held on June, 2021.
3. The company is engaged in the business of manufacturing of alcoholic beverages. There are no reportable segments other than alcoholic beverages, which singly or in the aggregate qualify for separate disclosure as per provision of the relevant Ind AS 108 "Operating Segments".
4. The figures for the quarter are the balancing figures between the audited figures as reported of the full financial year upto 31st March, 2021 and the unaudited year to date figures upto 31st December, 2020.
5. In March 2020, the World Health Organization had declared COVID-19 to be a pandemic and on March 24, 2020, the Government of India declared a nationwide lockdown, which got extended in phases across the country. Due to COVID-19 there was a significant reduction in the economic activity in the country. From May 2020, we resumed our business activities in a phased manner as per the directions issued by the central and state governments. The business operations of the company were severely impacted by the COVID-19 pandemic. The management of production, sales and distribution of the company's products has been severely impacted by the COVID-19 pandemic. The industry outlook remains positive yet remains volatile depending upon the global and domestic trajectory of the pandemic as well as the state of the economy. The company continues to actively review costs and focus on working capital management. We remain optimistic about the long term growth prospects of the industry.
6. Recently, India has seen a surge in the spread of COVID-19 in India and various state governments have imposed restrictions ranging from lock downs to nationwide curfews to contain the spread of COVID-19. The impact of COVID-19 pandemic on the overall economic environment continues to be uncertain. The company will continue to closely monitor the situation and any material changes to future economic conditions.
7. The Company had sought information and certification from its vendors as to their being a Micro, Small or Medium Enterprises set under the Micro, Small and Medium Enterprises Development Act, 2006, to comply with the requirements of Law. However, till date replies have been received from very few vendors. Hence, amounts due to Micro, Small and Medium Enterprises outstanding as on March 31st 2021 is not ascertainable. The process of collecting the information from the vendors is currently ongoing.
8. Previous period figures have been regrouped and/or reclassified, wherever necessary.
9. Shareholders are requested to intimate change of address, if any.

CASH FLOWS TO IMPROVE

E: Estimates; consolidated financials

Source: Motilal Oswal Research

However, longer pass through contracts and higher copper content in the truck business could lead to near-term pressures as was the case with its subsidiary PKC, which saw profitability pressures despite a 21 per cent rise in revenues.

Analysts at JM Financial say SMRPBV reported strong margins for the second consecutive quarter, driven by sustained improvements in performance of greenfield facilities owing to continued focus on cost reduction and efficiency enhancements. This coupled with no major greenfield facility in the near term is expected to translate into an improvement in cash flows and falling debt levels. Consolidated net debt is down from ₹7,992 crore at the end of FY19 to ₹4,820 crore in FY21. Most analysts expect the return on equity (10 per cent at pres-

ent) and net profit growth to jump 3-4 times over the next four years.

The Street is positive about the execution capabilities, healthy order book, improving margins and growth expectations from a cyclical upturn, but some brokerages have downgraded it citing valuations concerns. Despite a beat on estimates, Edelweiss has downgraded the stock given the sharp rally in its price. While management continues to execute well, the brokerage believes the Street's extremely high expectations (reflected in valuations) leave little room for disappointment.

At the current price, the stock is trading at 21 times its FY23 estimates as against its historical average of 20 times. Further corrections could be used as an opportunity by investors to buy the stock.

Cloud lifts over cryptos, but volatility remains

Start with small investments, but exclude from portfolios aimed at key financial goals

BINDISHA SARANG

Last week, the Reserve Bank of India (RBI) asked banks not to cite its 2018 order as a reason for denying services to customers who deal in cryptocurrencies. After this, both the cryptocurrency industry and investors heaved a sigh of relief. It appears that India may not emulate China and deny the industry access to banking services.

Perilous existence

Cryptocurrency exchanges in India have lived under the threat of closure for many years. First, the central bank issued a circular in April 2018 banning banks and other entities regulated by it from providing services to the exchanges. As a result, investing ground to a halt. In April 2020, however, the Supreme Court lifted the ban. Nonetheless, the regulatory uncertainty lingered owing to reports that the government may pass legislation to ban cryptocurrencies.

Finance Minister Nirmala Sitharaman's statement in March that the government would take a calibrated approach brought some relief. In May, however, crypto exchanges once again began to complain of banks denying services. China's crackdown on the industry also stoked fears.

EXPERTS' TAKE ON CRYPTOCURRENCY TAXATION

RBI's latest instruction has bolstered the view that Indian investors may be allowed to invest in cryptocurrencies. Says Sumit Gupta, chief executive officer (CEO) and co-founder of CoinDCX: "RBI's clarification is a welcome move for both the crypto investor community and crypto exchanges operating in the country."

To allay the government's apprehensions that crypto investments could become a conduit for illegal activities, the industry has decided to undertake self-regulation. The Blockchain and Crypto Assets Council (BACC), a part of the Internet and Mobile Association of India (IAMAI), is setting up a board to oversee the

- Income or gains from the sale of cryptocurrencies will be taxable, though specific guidelines from the income-tax department are awaited, say experts
- Cryptocurrencies may be treated as a long-term capital asset when held for more than three years, with taxation at 20 per cent rate along with indexation benefit
- When held for less than three years, they are likely to be taxed at applicable slab rates
- Tax treatment may be different for those who trade frequently (it may then be treated as business income)

Source: ClearTax

implementation of a self-regulatory code of conduct for member exchanges. The code includes voluntary compliance with anti-money laundering, know your customer (KYC) regulations, company and taxation laws, and combating of terrorism financing.

Volatility remains high

While the regulatory cloud hanging over cryptocurrencies has dissipated for now, volatility remains a concern. Bitcoin traded at around \$11,200 in end-July 2020. From there it rose to \$63,300 by mid-April 2021, and then fell sharply to around \$30,000 in mid-May.

Says Avinash Shekhar, co-CEO, ZebPay: "Cryptocurrencies are a new asset class and investors should treat it as an investment in a

start-up—as a high-risk high-reward category. As in any new asset class, there will be price volatility in the short term." He adds that it may become a more stable asset class as it matures.

Every retail investor may not, however, be able to handle such high volatility.

What should you do?

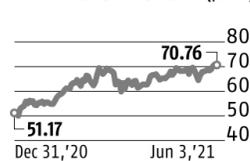

Most financial planners (FPs) remain skeptical about cryptocurrencies, one reason being that it is not a regulated asset class. "I would advise retail investors to avoid any asset class that is not tightly regulated," says Vishal Dhawan, chief financial planner, Plan Ahead Wealth Advisors.

FPs believe cryptos can't be made a part of regular portfolios. Says Pankaj Mathpal, managing director and CEO, Optima Money Managers: "They can't be a part of portfolios aimed at achieving goals like children's education, retirement, etc." He says investors can at best set aside some money, which they can afford to lose, for investing in cryptocurrencies, provided they are clear they are speculating with this money, just as one would on a lottery ticket.

Adds M Barve, founder, MB Wealth Financial Solution: "If you have checked all boxes of financial management and have some cash left which you can write off mentally, you may invest in cryptocurrencies but for the long term."

Oil steady after sharp rise on improved demand

BRENT CRUDE SPOT (\$/BBL)

REUTERS
London, 3 June

Oil prices were little changed on Thursday after strong gains in the previous two sessions on expectations for surging fuel demand later this year while major producers maintain supply discipline. Brent crude futures were up 12

cents, or 0.17 per cent, at \$71.47 a barrel by 0952 GMT after touching their highest since September 2019 at \$71.99. The international benchmark had gained 1.6 per cent on Wednesday.

US West Texas Intermediate crude futures rose 8 cents, or 0.12 per cent, at \$68.91. Prices rose as high as \$69.40, the strongest since

October 2018, after gaining 1.5 per cent in the previous session.

The consensus among market forecasters, including the Organization of the Petroleum Exporting Countries (Opec) and its allies within the wider Opec+ group of producers, is that oil demand will exceed supply in the second half of 2021.

	Diluted (in Rs.)	0.56	(1.69)	(0.75)	(5.86)	2.32	

Notes:
1. Summarized Audited standalone financial results of the company is as under:
2. The company is engaged in the business of manufacturing of alcoholic beverages. There are no reportable segments other than alcoholic beverages, which change or in the aggregate qualify for separate disclosure as per provision of the relevant Ind AS 108 "Operating Segments".
3. The figures for the quarter are the balancing figures between the audited figures in respect of the full financial year upto 31st March, 2021 and the unaudited year to date figures upto 31st December, 2020.
4. In March 2020, the World Health Organisation had declared Coronavirus (COVID-19) to be a pandemic and on March 24, 2020, the Government of India ordered a nationwide lockdown, which got extended in phases across the country. Due to COVID-19 there was a significant reduction in the economic activity in the country. From May 2020, we resumed our business activities in a phased manner in line with directives issued by the central and state governments. The business operations of the company were severely impacted in particular by the loss of peak season in FY 20-21, interruption of production, disruptions in the supply chain, loss on materials etc. The industry outlook remains positive yet remains volatile depending amongst others on the future trajectory of the pandemic as well as the state of the economy. The company continues to actively review costs and focus on working capital management. We remain optimistic about the long-term growth drivers of the industry.
5. Recently, India has seen a surge in the spread of COVID-19 in India and various state governments have imposed restrictions ranging from lock-downs to night-wentdown curfews to contain the spread of COVID-19. The impact of COVID-19 pandemic on the overall economic environment continues to be uncertain. The Company will continue to closely monitor the situation and any material changes in future economic conditions.
6. The Company had sought information and certification from its vendors as to their being a Micro, Small or Medium Enterprise and under the Micro, Small and Medium Enterprises Development Act, 2006, to comply with the requirements of Law. However, 38 sales replies have been received from any five vendors. Hence, amounts due to Micro, Small and Medium Enterprises outstanding as on March 31st 2021 is not ascertainable. The process of collecting the information from the vendors is currently ongoing.
7. Previous period figures have been regrouped and/or reclassified, wherever necessary.
8. Shareholders are requested to intimate change of address, if any.
